

A Healing Insight from Reiki-EssenceHealing

Did You Know This About Reiki Energy?

The Life Force Within You

Did You Know?

There is a very powerful energetic unseen life force within you, that flows through your physical body via your chakra energy centers, nourishing your organs and cells, while maintaining your health, wellbeing and vitality .

When this life force gets blocked, the affected tissues and organs within your body can inhibit their function, negatively affecting your health and wellness. This affects you physically, mentally, emotionally and spiritually.

There is a very powerful way of channeling this life force energy, to enhance and expand your physical, mental, emotional, and spiritual health. It's called Reiki-Essence Healing.

As a skilled Reiki Master I work to infuse the much needed life force energy to the blocked chakra centers. Once the divinely guided Source Reiki energy has cleared the blocked energy centers, they will flow naturally, restoring normal function.

I offer a free 15 min consultation prior to scheduling should you have further questions.
